

Monthly Indicators

A RESEARCH TOOL PROVIDED BY THE MASSACHUSETTS ASSOCIATION OF REALTORS®

MASSACHUSETTS ASSOCIATION OF REALTORS®

August 2016

Closed sales began to cool for much of the country last month, and conventional wisdom indicates that year-over-year declines are going to be present for the remainder of the year, given the low inventory situation in most markets. Demand is certainly present and has created competitive situations that have kept prices up. Rental prices are also up, which may lure more toward homeownership.

New Listings were down 6.5 percent for single-family homes and 2.8 percent for condominium properties. Closed Sales increased 4.0 percent for single-family homes and 0.8 percent for condominium properties.

The Median Sales Price was up 2.7 percent to \$375,000 for single-family homes and 2.8 percent to \$345,000 for condominium properties. Months Supply of Inventory decreased 41.4 percent for single-family units and 35.3 percent for condominium units.

As inventory continues to drop, the contradictions of today's market are evident. Sellers should feel confident enough to list homes at fair prices and receive meaningful offers in a healthy residential real estate and overall economic environment. However, there may be lingering worry over the availability of move-in ready homes to replace what was sold. On a brighter note, building permits are trending upward. That news should be weighed against the fact that the highest level of activity is in multifamily rentals.

Historical New Listings by Month

Glossary of Terms

A research tool provided by the Massachusetts Association of REALTORS®

MASSACHUSETTS ASSOCIATION OF REALTORS®

| | |
|--|--|
| Closed Sales | A measure of home sales that were closed to completion during the report period. |
| Median Sales Price | A measure of home values in a market area where 50% of activity was higher and 50% was lower than this price point. |
| Housing Affordability Index | A measure of how affordable a region's housing is to its consumers. A higher number means greater affordability. The index is based on interest rates, median sales price and average income by county. |
| Inventory of Homes for Sale | A measure of the number of homes available for sale at a given time. Once a listing goes pending, sold or is taken off the market, it is no longer considered "active." The availability of homes for sale has a big effect on supply-demand dynamics and home prices. |
| Months Supply of Inventory | The inventory of homes for sale (at the end of a given month) divided by the average monthly pending sales from the last 12 months. |
| Final Days on Market Until Sale | A measure of how many calendar days pass between when a listing becomes active (not pending) for the last time to the last time it goes pending directly before it is sold. A pending sale is defined as something classified as Pending, Active with a Flag, Contingent or Under Agreement. |
| Cumulative Days on Market Until Sale | A measure of the average number of calendar days that pass from when a listing is first listed to when a property goes into the last pending status before it is sold. |
| Percent of Original List Price Received | This is calculated as Total Sold Dollars (all sold prices added together) divided by Total Original Price (all original list prices added together). |
| New Listings | A measure of how much new supply is coming onto the market from sellers. It is calculated by counting all listings with a list date in the reporting period. |
